REMEMBER THE DEAD

November 12th is not only Remembrance Day but is also the fourth anniversary of the massacre by Indonesian troops of more than 500 people at Dili in East Timor. In 1975 Indonesia invaded and occupied the country of East Timor, and have since that time committed atrocities amounting to genocide. Today Indonesian forces continue to terrorize the East Timorese despite ten United Nations resolutions calling on them to withdraw. More than 200,000 people, 1/3 of the population, have died as a result of the occupation.

STOP BRITAIN'S WAR

IN EAST TIMOR

Britain is actively taking part in this war by arming the Suharto dictatorship which rules Indonesia. British Aerospace (BAe) Hawk aircraft sold to the Indonesians in the early 1980's have been used to bomb villages on the island. Another 24 Hawk aircraft are due to be delivered to Indonesia in early 1996.

CANCEL THE HAWK DEAL NOW

As part of the campaign to stop the supply of arms to Indonesia, we are organising a weekend of action on November 11/12th. The government has granted BAe a license to export the aircraft but we are cancelling the deal, as citizens concerned at our country's complicity in genocide. Listed overleaf are some of the national events which are taking place but there will also be local events including street stalls, petition signing and public meetings. Why not organise something in your area?

STOP THE HAWKS - NO ARMS TO INDONESIA is a coalition of groups including: ARROW, BAe Campaign, British Coalition for East Timor, Fire Brigade Union, Green Party, Merseyside East Timor Campaign, Stop ALVIS Tanks, Stop Hawks Oxford Campaign, Stop Hawk Deal - Manchester, Stop the Hawks - London and South East, Pax Christi, TAPOL - Indonesian Human Rights Campaign, UNISON, World Development Movement.
